## WELFARE SERVICES

Speak with the Student Services team for a deeper understanding of Western Sydney University International College policies and procedures like special consideration, review of grades, withdrawal without academic penalty, appeal against exclusion and conditional enrolment.

The trained officers also provide support for academic, research and/or general misconduct hearings, financial hardship, and other matters such as accommodation, sexual health and welfare related concerns.

## ACADEMIC SUPPORT CLASSES

You can attend regular workshops designed to improve overall academic performance. With classes on essay writing, referencing, skim-reading, literacy skills and more, a few workshops could be the difference between a credit and a high-distinction.

## ACCOMMODATION

There is a range of accommodation options nearby to suit your lifestyle and budget, giving you every opportunity to immerse yourself in a rich and vibrant learning environment.

With a variety of activities, sporting facilities, indoor and outdoor entertainment, living on campus at Western Sydney University is a great opportunity to meet a range of people from different cultures, make new friends and embrace the next phase of your life. ## HOMESTAY

A homestay involves staying in either a single or shared room at the home of an Australian family. It is a great opportunity for you to immerse yourself in English language and Australian culture, either for the duration of your study, or while you find your own accommodation.

For more information about homestay accommodation, click here:

## WORKING IN AUSTRALIA

As an international student, you may work up to 48 hours per fortnight during each study session and unlimited hours when your course is not in session. Permission to work is automatically included in your student visa. Although you are able to work, you cannot rely on that income to fund your tuition fees or living costs for the duration of your stay in Australia. Many international students choose to work part-time during their studies, but it is unrealistic to expect that you will find part-time work as soon as you begin looking for it. You will first need to become familiar with the city and the areas where part-time employment is available. It is also important to understand your study obligations before you commit yourself to part-time work.

For more information, please visit:  
[studyinaustralia.gov.au](http://studyinaustralia.gov.au)

## HEALTH COVER

Overseas Student Health Cover (OSHC) is insurance that provides cover for medical and hospital care which you may need while you are in Australia. OSHC will also pay for most prescription drugs and emergency ambulance transport.

If you are an international student studying in Australia and have a student visa, you must purchase an approved OSHC policy from a registered health insurance company - commonly referred to as health funds.

You will need to buy OSHC before you come to Australia to cover you from the day you arrive. It is a student visa condition that all students maintain OSHC throughout their stay in Australia.

For more information, please visit:  
[homeaffairs.gov.au](http://homeaffairs.gov.au)

or the website of Allianz (our preferred provider):

## UNDER 18 STUDENTS

At the International College, we have special structures in place to protect the welfare of students who are under 18 years of age. These are in addition to our commitment to caring for every International College student through our welfare and counselling, pastoral care and academic support services.

The International College's Students Under 18 Years Policy outlines this structure in more detail and complies with both the Education (Overseas Student) Regulations, and the Department of Home Affairs (DoHA) requirements for ensuring that international students under the age of 18 are adequately cared for during their studies.

Parents of students under 18 are encouraged to maintain contact with the International College Student Services if they have any questions or concerns.

However, the actual cost depends on your individual lifestyle and you should budget for up to **AU\$38,000** per year per adult. Remember, your living expenses are separate from your tuition fees.

You will need to bring enough money with you to cover your expenses for the first few weeks. International transfers can take some time!
